Menter name :Dr.C.SIVAKUMAR

A subscriber to a channel on the video-sharing YouTube is a user who has chosen to receive the channel's content by clicking on that channel's "Subscribe" button, and each user's subscription feed consists of videos published

by channels to which the user is subscribed. The ability to subscribe to users was introduced in October 2005.

YouTube began publishing a list of its most-subscribed channels in April 2006. An early archive of the list dates to May 2006.

Project Flow:

To accomplish this, we have to complete all the activities listed below,

- Define Problem / Problem Understanding
 - Specify the business problem
 - Business requirements o Literature Survey
- Data Collection & Extraction
 - Collect the dataset

- Connect Dataset with Tableau
- Data Preparation
 - Prepare the Data for Visualization
- Data Visualizations
 - No of Unique Visualizations
- Dashboard
 - Responsive and Design of Dashboard
- Story
 - No of Scenes of Story
- Performance Testing
 - Utilization of Data Filters
 - No of Visualizations/ Graphs
- Publishing
 - Publishing Dashboard & Story to Tableau Public
- Project Demonstration & Documentation
 - Record explanation Video for project end to end solution
 - Project Documentation-Step by step project development

Milestone 1: Define Problem / Problem Understanding

Activity 1: Specify the business problem

Refer Project Description

Activity 2: Business requirements

- Channel Information: Each YouTube channel should have a dedicated page or profile that displays essential information, including the channel name, description, subscriber count, video views, upload frequency, and engagement metrics.

Activity 3: Literature Survey (Student Will Write)

A literature survey conducted by students exploring YouTube channels would typically involve researching existing studies, academic papers, and publications related to the topic.

Activity 1: Collect the dataset

Please use the link to download the dataset:

Activity 1.1: Understand the data

Data contains all the meta information regarding the columns described in the CSV files. We have provided csv file.

Column Description for Youtube_Channels.csv:

- (17) Countries: * India, United States, Sweden, Ukraine, Russia, South Korea, Cyprus[a], Canada, Brazil, Argentina, Romania, United Kingdom, Chile, Mexico, El Salvador, United States (Puerto Rico), Belarus.

- (8) Categories: Music, Education, Entertainment, Games, Sports, Film, How-to, News.

- (7) Primary Languages: English, Hindi, Spanish, Korean, Portuguese, Russian, Bhojpuri.

- (49) Name:

1. ● T-Series
2. ● Cocomelon
3. ● Sony Entertainment Television India
4. ● MrBeast
5. ● Kids Diana Show
6. ● Like Nastya
7. ● Vlad and Niki
8. ● WWE
9. ● Zee Music Company
10. ● Blackpink
11. ● Goldmines

12. ● 5-Minute Crafts
13. ● Sony SAB
14. ● BangtanTV
15. ● Justin Bieber
16. ● Hybe Labels
17. ● Canal KondZilla
18. ● Zee TV
19. ● Pinkfong
20. ● Shemaroo Entertainment
21. ● ChuChu TV
22. ● Colors TV
23. ● Dude Perfect
24. ● Movieclips
25. ● T-Series Bhakti Sagar
26. ● Tips Industries
27. ● Wave Music
28. ● Marshmello
29. ● Sony Music India
30. ● El Reino Infantil
31. ● Aaj Tak
32. ● Eminem
33. ● LooLoo Kids
34. ● Ed Sheeran
35. ● Yash Raj Films
36. ● Ariana Grande

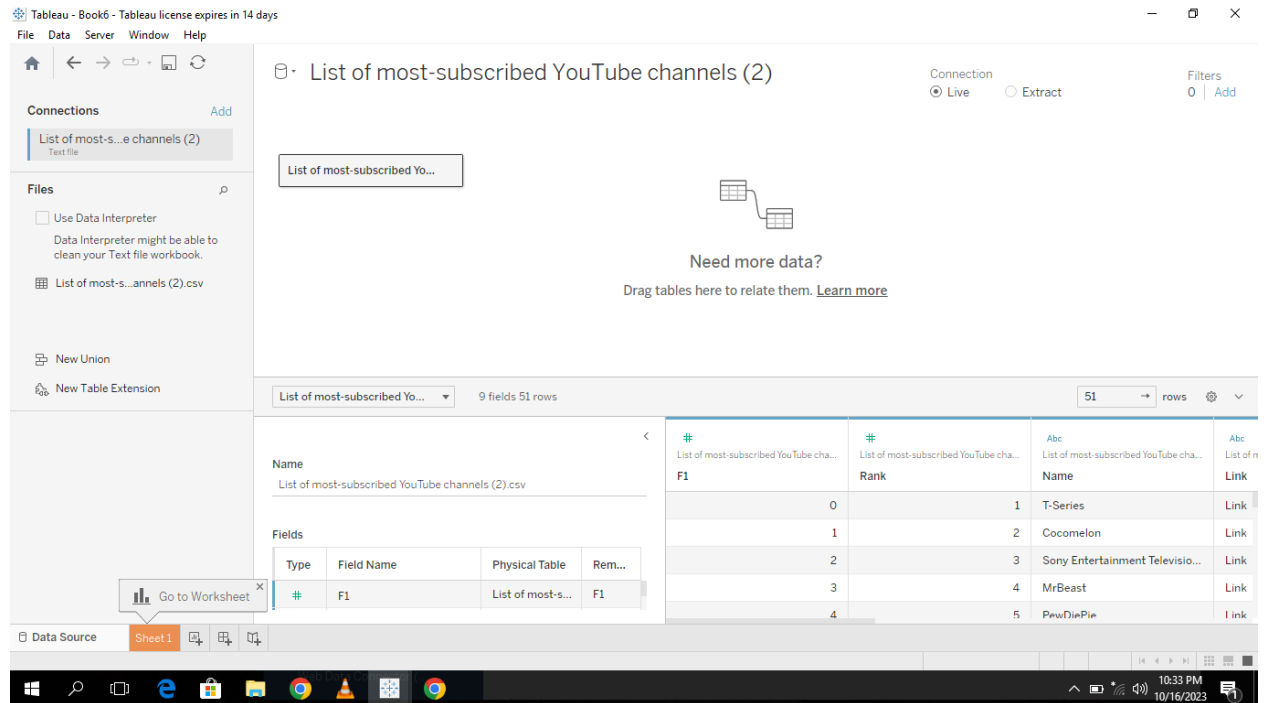

Activity 2: Connect Dataset with Table

Explanation video link:

MILESTONE 3 : Data preparation

Activity 1: Prepare the Data for Visualization Preparing the data for visualization involves cleaning the data to remove irrelevant or missing data, transforming the data into a format that can be easily visualized, exploring the data to identify patterns and trends, filtering the data to focus on specific subsets of data, preparing the data for visualization software, and ensuring the data is accurate and complete. This process helps to make the data easily understandable and ready for creating visualizations to gain insights into our analysis

Milestone 4: Data Visualization Data visualization is the process of creating graphical representations of data in order to help people understand and explore the information. The goal of data visualization is to make complex data sets more accessible, intuitive, and easier to interpret. By using visual elements such as charts, graphs, and maps, data visualizations can help people quickly identify patterns, trends, and outliers in the data. Activity 1: No of Unique Visualizations The number of unique visualizations that can be created with a given dataset. Some common types of visualizations that can be used to analyze the performance and efficiency of project include bar charts, line charts, heat maps, scatter plots, pie charts, Maps etc. These visualizations can be used to compare performance, track changes over time, show distribution, and relationships between variables.

Activity 1.1 Rank with Channel, No of Channels with Brand And Channel Brand Explanation video link:

Activity 1.2: Channel name with subscribers and No of channels for particular language. Explanation video link:

Activity 1.3: Country and Language wise subscribers Explanation video

Activity :1- Responsive and Design of Dashboard The responsiveness and design of a dashboard for Data-Driven insights on YouTube channels Analysis is crucial to ensure that the information is easily understandable and actionable. Key considerations for designing a responsive and effective dashboard include user-centered design, clear and concise information, interactivity, data-driven approach, accessibility, customization, and security. The goal is to create a dashboard that is user-friendly, interactive, and data-driven, providing actionable insights.

Explanation vide
Milestone 6: Story A data story is a way of presenting data and analysis in a narrative format, with the goal of making the information more engaging and easier to understand. A data story typically includes a clear introduction that sets the stage and explains the

context for the data, a body that presents the data and analysis in a logical and systematic way, and a conclusion that summarizes the key findings and highlights their implications. Data stories can be told using a variety of mediums, such as reports, presentations, interactive visualizations, and videos.o link:

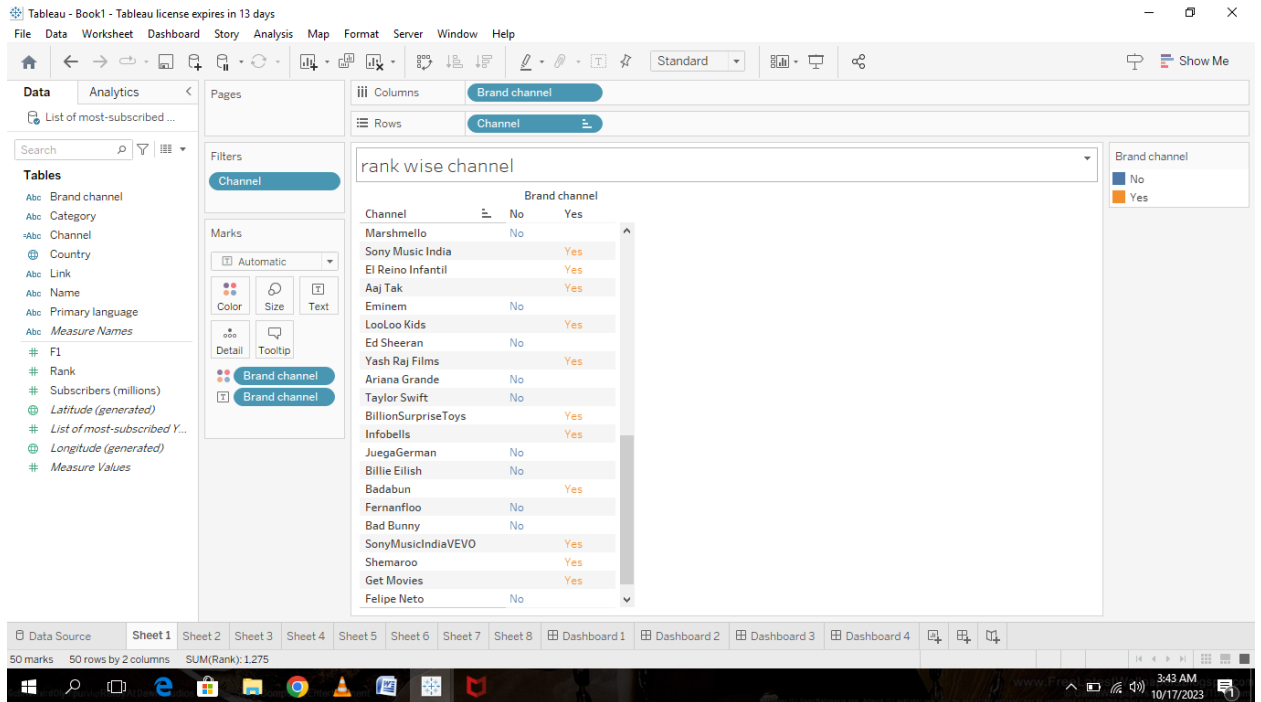

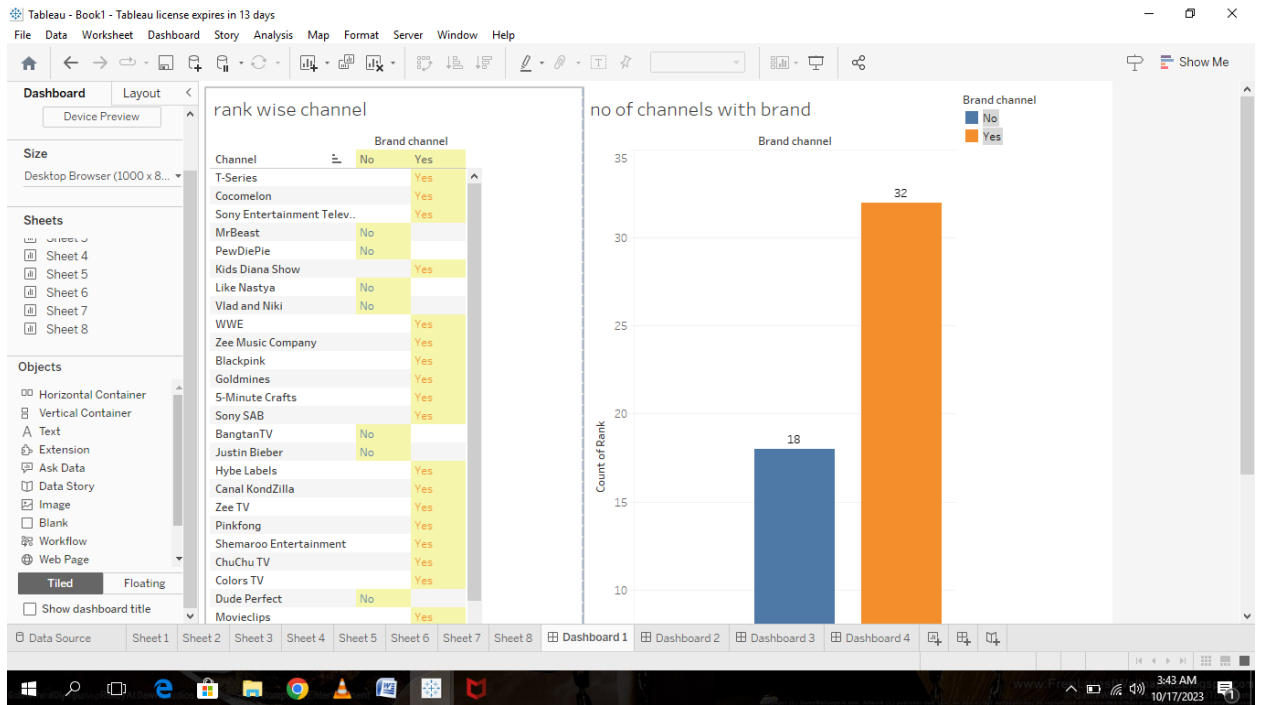

Activity 1.4: Country wish Channel

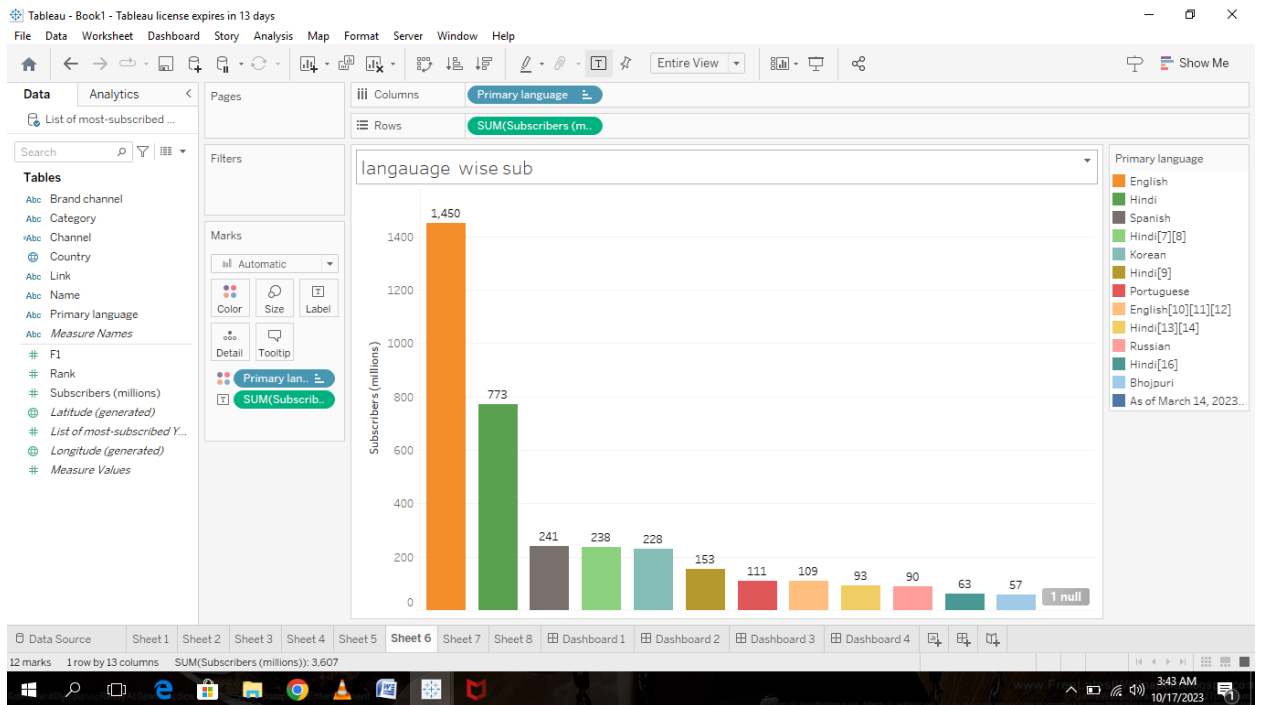

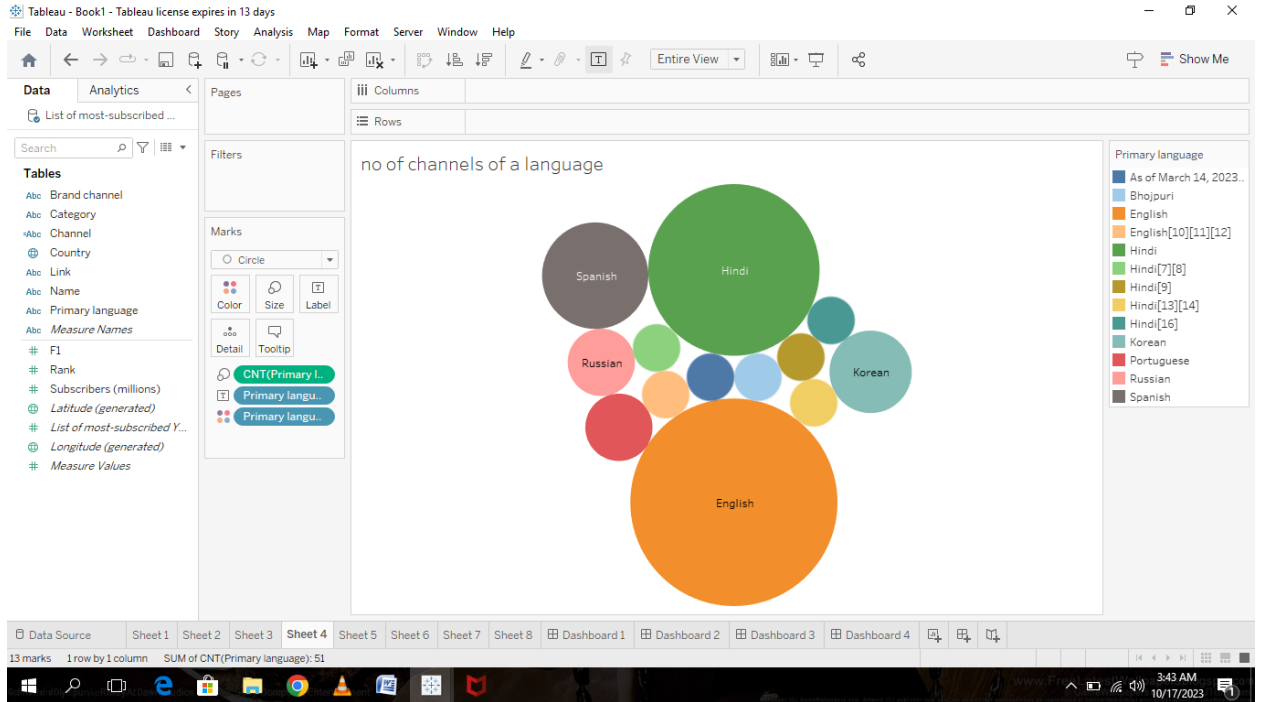

Milestone 5: Dashboard

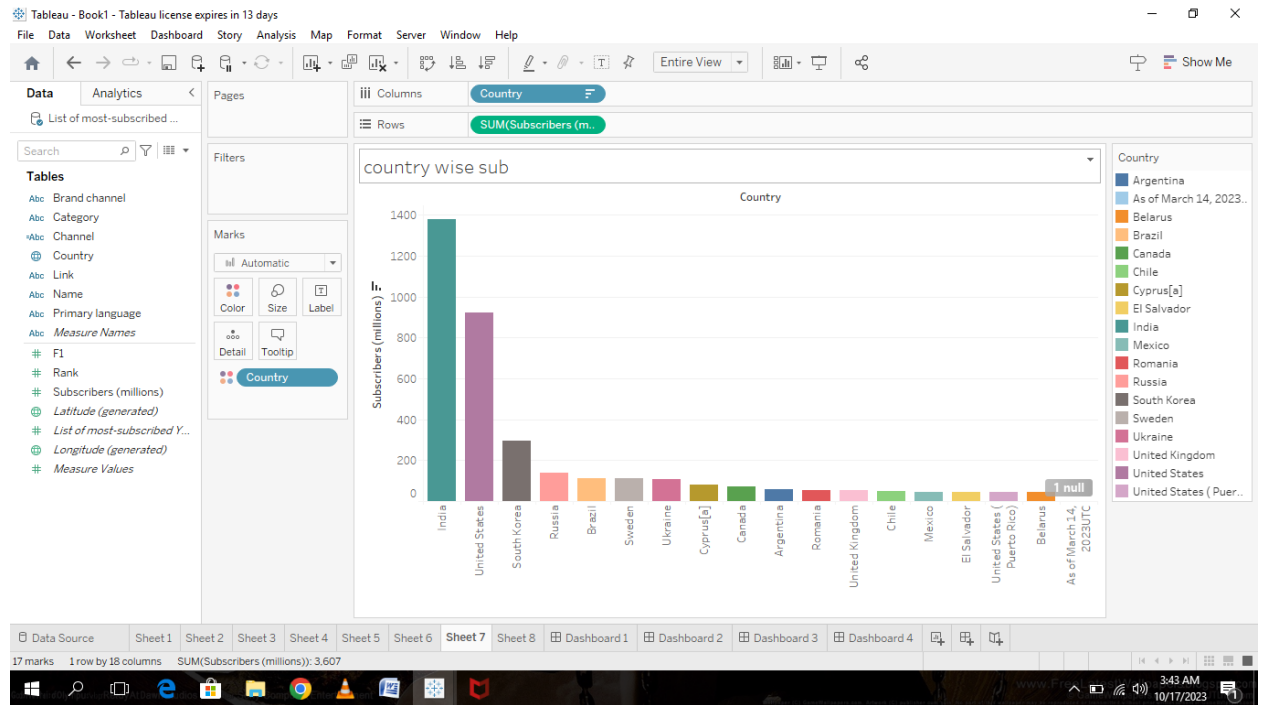

Activity:1- Responsive and Design of Dashboard

Milestone 6: Story

Activity:1-No of Scenses of Story

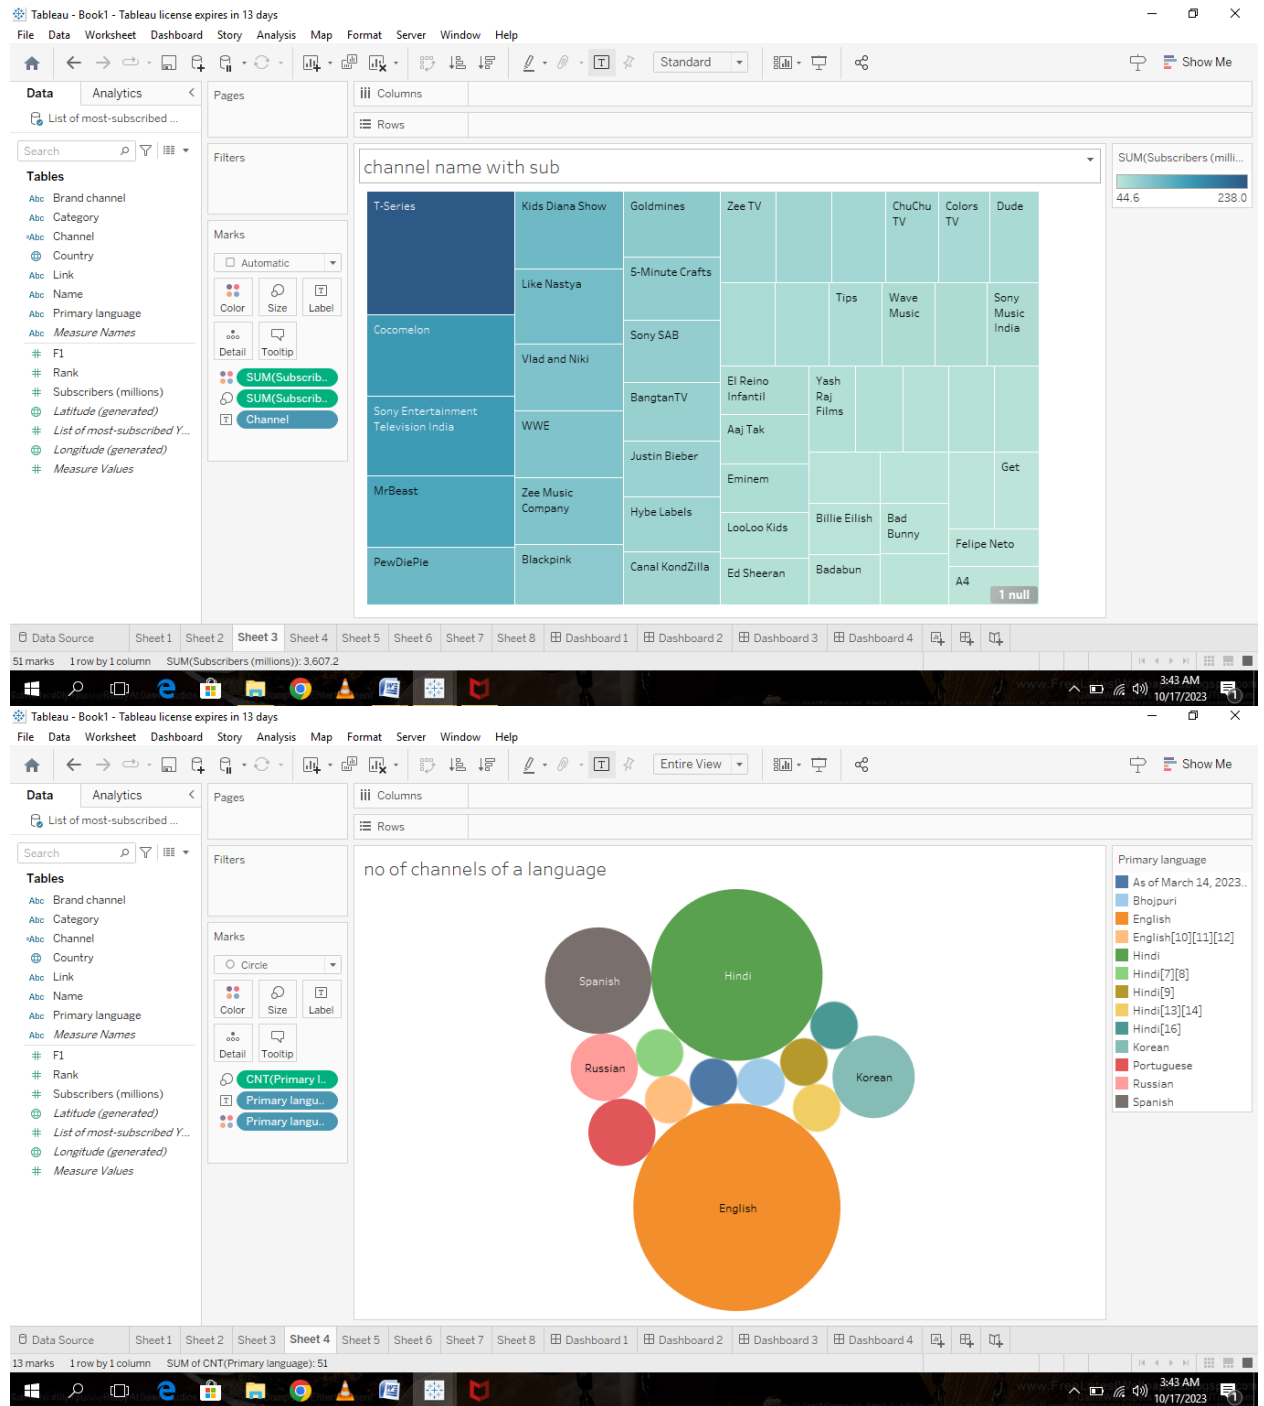

Milestone 7: Performance Testing

Activity 1: Utilization of Filters

Activity 2: No of Visualizations\Graphs

Milestone 8: Publishing

Milestone 9: Project Demonstration & Documentation
